

CANISIUS HIGH SCHOOL

JESUIT PREPARATION *for* COLLEGE...FOR LIFE

May 21, 2021

Dear Parents,

Walgreens will be coming back on campus next Thursday, May 27th from 2-4 p.m. to give students who participated in their first vaccine clinic their second vaccination dose. They will also be offering to students or a family member age 12 or above the opportunity to receive the first dose of the Pfizer Covid vaccine. Attached to this document will be a QR code which can be used to schedule a time on that day. Please note that Walgreens recommends that students are accompanied by their parent but if you are unable to attend and you want your son to receive the vaccine please complete the Informed Consent For Vaccination Form and have your son bring it on that day to the clinic. Please note that students and family members will be required to remain at school for 15 minutes following the administration.

If you are meeting your son at school for his appointment please enter through the glass front doors and the receptionist and will direct you to the Health Office. Please consider registering for your appointment by **Monday, May 24th**. More appointments will be added based on need.

Questions can be directed to Mrs. Keating at 200-0237.

Sincerely,

Mr. Thomas W. Coppola
Canisius High School
Dean of Students
